Custom Display Programs

Start a custom product display program with us, and we will build and ship your solid wood displays to the stores that opt-in to your program.

What is a product display program?

If you are a small goods manufacturer and want stores to make room for your products, offering your own display pieces can help seal the deal. We will work with you to create solid pine product displays to offer your customers. This is your chance to get a solid foothold within valuable retail spaces and control how your product is presented to buyers. Provide a focal point in stores with your product as the highlight. Send us your logo and we'll take care of the signage as well.

Perfect for small goods manufacturers

Candles, soap, tea, dry goods

Ensure products show prominently in stores

A custom display provides great visibility and brand awareness

Starter kits make great incentives

Offer your customers a display and product enough to fill it

Visit www.sawdustcitywholesale.com for more info.

Custom Soap Display
with Extra Storage in
Extra Distressed Sea Blue

Small Product Display
in Chestnut Stain

Medium Candle Display
with Extra Storage in
Old Cottage White

Large Custom T-Shirt
Display in Old Blue

These are just examples.
We will customize your
displays to your needs
and specifications.

WHO WE ARE

Sawdust City is a small company with big capabilities. Based out of Eau Claire, Wisconsin, our wood-working echoes the logging traditions of years past, which also inspired our name.

We provide on-demand manufacturing for a wide range of businesses in the home and gift industry, from individual stores, to national catalogs and webstores.

Our North American location combined with our efficient production means our lead times are some of the quickest in the industry. No imports or overseas shipments that can get held up in transit.

Professionalism combined with a personal touch is what we're all about at Sawdust City. You're only a phone call or email away from talking with a real person who actually works here, and can answer your questions.

WHAT WE MAKE

Sawdust City specializes in rustic pine furniture and wood signs with sayings.

We use solid knotty pine, and a wide variety of paints and stains to create pieces that are stylish, sturdy, and meant to be used for years to come.

Our built-to-order process means we can easily create products that are customized to fit your needs, and made exclusively for you. Whether it's specialized displays for your store, or custom products people can only get from you, we've got you covered!

- Small Wood Home Decor
- Store Displays & Shelving

HOW WE DO IT

At Sawdust City, we build each item from beginning to end—from raw lumber to finished product. Each piece is made to order, we do not warehouse products to simply pull off the shelf. Despite that, our efficient workflow means we can turn your order around in record time! No waiting for a boat from overseas with a flat pack of MDF. Our products are made from real wood and ship mostly—if not fully—assembled.

We choose knotty wood and create our products to have an old look and feel. Expect knots, variances in color, finish, and wood. Because wood is a natural product, the slight flaws add to the character of each piece. All our furniture and display pieces are made using screws and plugs, not air nails and staples. Our solid pine furniture is meant to last and be used forever!
